Twitter launches Promoted Accounts ad in Search

Twitter ads [Promoted Accounts in Search](#) (after you could see them in your Timeline):

- You cannot (oddly) choose which keywords to be promoted on, Twitter will manage it with its **algorithms**
- It's a good idea to run these ads during a **crisis management**, to promote your "official voice" when people look for the info (think of #mh370 and Malaysia Airlines)
- The highly engaged users you can reach with this type of ads are **72% more likely to convert** as buyers
